Hello Brian,

Following up on my email below, the source code printouts are ready to be picked up. Please let us know who will be picking up the printouts and what time they'll be arriving so that we can arrange to have someone meet that person, and please make sure that person has their photo ID with them.

Also, two of the source code files you mentioned in your list appear to have been missing part of the file path. We identified the missing part of the path for both files (the "logic" folder), as shown below, and printed those files.
